

**Summer's here.
Flights are a mess.
Let's build something.**

EAIS Buildathon — June 2026

The Setup

You're flying home in three weeks.

Overweight Bag

Your bag is 1kg over.

Delayed Flight

Your flight is delayed.

Refund Request

You want a refund for a ticket you bought six months ago.

You open the support chat. The AI sounds confident. **Is it telling the truth?**

The Client

Erasmus Airways has a problem.

40,000

Support Tickets

Per week

70%

Already Answered

Questions already in the help center

€18M

Annual Support Cost

They want to automate Tier 1. You have **two hours**. Build something that works.

The Documents

You get **12 documents**. Two types.

Policy Documents

Policies don't change.

- Baggage rules
- Refunds
- Check-in fees
- EU261 compensation
- Name changes
- Special assistance

Live Notices

Notices do change.

- Fuel surcharge update
- Middle East route suspension
- World Cup disruption
- Schiphol slot cap & queue times
- Brussels ground staff strike in July
- Summer peak warning

The split is deliberate. **Your chatbot doesn't know the difference.**

The Chunking Decision

Before you open Lovable, answer these three questions as a team. **Write them down.**

1

How big are your chunks?

2

Do you use overlap?

3

Where do you draw the boundary?

Character count, sentence, paragraph, or topic?

 No right answer. You'll revisit this when your pipeline breaks.

The Stack

Lovable

Builds the app

Claude API

Embeddings and chat

Supabase pgvector

Stores and retrieves your chunks

The Pipeline

Claude only answers from what was retrieved. If it's not in the chunks, it should say so.

The Question Set

First: ask these to plain Claude. No documents. Write down what it says.

Delay Compensation

My flight was delayed 2.5 hours — am I entitled to compensation?

Airspace Reroute

My Tel Aviv flight was rerouted due to airspace restrictions and arrived 3.5 hours late — do I get EU261 compensation?

Cancellation Options

Erasmus Airways cancelled my flight 10 days before departure — what are my options?

Bereavement Policy

What is Erasmus Airways' policy on bereavement cancellations?

Then build. Then ask again.

2 Hours. Go.

Build a working RAG chatbot for Erasmus Airways.

Build

Use the stack, documents, and question set in your pack.

Test

Run your question set. Does it work?

Demo

Show it at the end of the session.

Advanced Track

Find where it breaks and why.

✓ Stack, documents, and question set are in the pack. **Go.**
